The following guidelines have been developed to provide necessary information to the Student Access Center when requesting a campus housing accommodation.

Documentation is required to provide adequate information that establishes the presence of a disability and the functional impact on major life activities, specifically related to housing (e.g., D5(es)tW*5(es)tW*550n

Important notes:

Accommodations are meant to offset the impact of the disabling condition and do not include interventions that are remedial; needed for personal study or care; or designed to ensure desired outcomes.

Self-report, self-assessment, or brief screening tools alone are not sufficient sources of
